The Value of Quality

- Our major supplier is ALUKONIGSTAHL Bulgaria, a representative for the high-quality German profiles SCHÜCO, distinguished by their reliability and wide range of products which allow for a variety of elegant and sophisticated designs. All SCHÜCO products have a guaranteed origin and are tested before being put into use in the SCHÜCO International KG test center in Bielefeld, Germany.

The Value of Quality

- The aluminum doors and windows use the EXALCO profile system, manufactured in Larissa, Greece. EXALCO is one of the leading companies in Greece's aluminum industry. It stands for tradition, quality, experience, perfect design and excellent results.

The Value of Quality

ETEM Building Systems – One of our corporate partners

ETEM changes and adapts to the new demanding circumstances.

ETEM Building Systems was set up in an effort to keep up with developments in the aluminium frames market. Its goal is to ensure a faster response to changes in consumer needs, and as a result, in the needs of professional frame technicians. By offering a complete line of Architectural Systems, with integrated solutions and top-level service, it keeps adding value for its customers and partners.

The Value of Quality

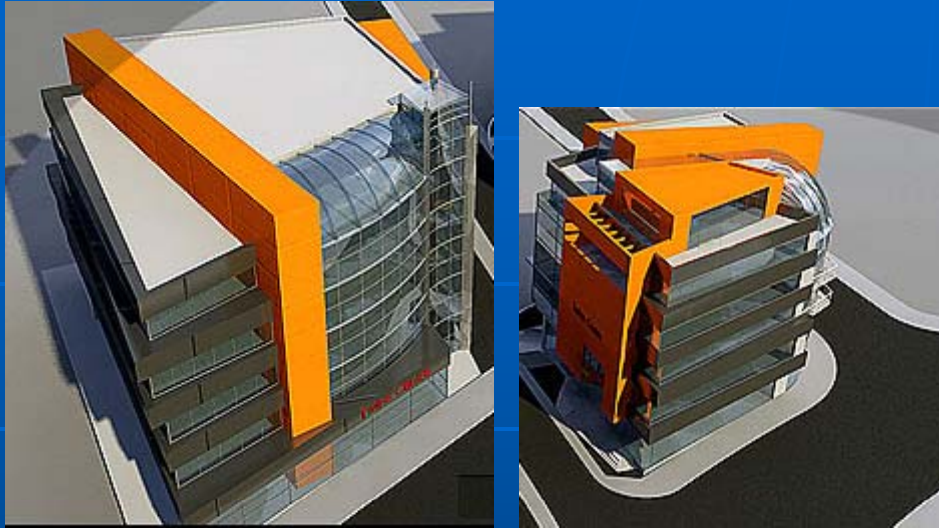

- The company also manufactures doors and windows with profiles based on the system WP: 3- or 4-chambered, made in Bulgaria.
- The Weiss Profil systems are profiles with a European appearance, developed by the latest Austrian technologies. Their quality is monitored by a modern laboratory, equipped with high-precision measurement devices.

Our products ensure you:

- Optimal protection from the environment (temperature, noise, air, snow, rain)
- Natural ventilation of indoor space
- Natural light penetration
- Low maintenance
- Easy manipulation
